The Regulatory Frontier: Designing the Rules that Shape Innovation

WHITE PAPER
JANUARY 2026

The New Regulator: Trusted Partner at Top Speed

Maintain trusted governance

Run the Infrastructure with clear accountability, independent oversight and transparent performance data to sustain confidence.

Provide foundational infrastructure

Catalyse public digital rails where markets cannot (e.g. In payments, data exchange or Identity): lower entry barriers, widen reach and enable scale.

Ensure open and neutral access

Keep participation on equal terms through published standards, interoperable APIs, and non-discriminatory entry rules (no gatekeeping by Incumbents).

THE WEF Model

- Adaptive
- Cross-Border
- Open Market
- Transparent
- Speed of Innovation
